I appreciate all of your work/the team's work in getting the slides to where they are today. I went through and removed/edited a number of the remaining notes in the notes section of the presentation. Please just take a look to see if you agree with those edits before I send this to our IO.

Thanks,  
Dana

Dana,

As discussed, attached are the updated briefing slides incorporating a few minor changes from BEAD and HED's comments on the mitigation outline. This version does not include the word for word talking points we discussed, but suggestions either BEAD wanted included or I had noted.

Let me know if there was anything else you needed.
